

**FIRST  
WITH THE  
SPRING!**

# FRILLS THAT LEAVE HOT PANTS COLD

HERE'S an unusual view of five birds of the air. Although you might be fooled by the plumage. They can often be seen high above the clouds, serving drinks and all prepared to put on a good face in time of crisis. But it seems an early touch of spring fever strikes even at 30,000 feet. And it brought a definite reverse for these BEA hostesses. They were out in yesterday's sunshine in frilly pants hot enough to put Paris out of business, practising some high

kicks at ground level. They'll give a can-can display at Twickenham, Middx., next week. According to BEA, the show will raise money for charity and "give cabin crews a chance to see more of each other." From left to right, the bottoms belong to: Tricia Hissey, aged 22, Elaine Brooks, 23, Dee Fitzgibbons, 23, Carole Morley, 22, and Gillian Pearson, 25. Or if you prefer it, here (below) is the other face of the can - can story.
